WORK PROJECTS INVOLVED

CLIENT	TASK
AUTHUR J GALLAGHER & CO	<ul style="list-style-type: none">• Developed a data scraping automation using UiPath (Visual Basic) to scrape the insurer's website for data.• Worked with the team to create a Ruby on Rails website where the data is sent to then be mapped out and transformed based on which insurance company the form was for.• Stored the form data using PostgreSQL tables and displayed on the website.• Added features to the website where the user can search for specific forms and edit the form data before UiPath can then perform a form renewal automation.• Technologies Used: Ruby on Rails, HTML/HAML, CSS, PostgreSQL, UiPath
SA WATER	<ul style="list-style-type: none">• Created and updated forms for SA Water• Technologies Used: HTML

CALLAN	<ul style="list-style-type: none"> • Developed Front end tasks for Callan using React to create, test and debug featured requests via Jira ticketing system. • Created an export system that would use Regex to format their financial data and export it into an excel sheet for tables that weren't using the ag grid. • Completed CSS and HTML/HAML updates and fixes as assigned via tickets. • Technologies Used: React, JavaScript, CSS, TypeScript, HTML/HAML, Regex, Jira
AUTHUR J GALLAGHER & CO	<ul style="list-style-type: none"> • Developed a proof-of-concept application using Formstack to submit form data to a webapp that then saves and sends the request to the CHU Insurance API. • Saved the API response using PostgreSQL tables. • Displayed the data on a Rails website dashboard where users can create manual quotes. • Technologies Used: Ruby on Rails, CSS, HTML/HAML, Docker
GOOD DOG DESIGN	<ul style="list-style-type: none"> • Managed and updated the Good Dog Design website • Technologies Used: Craft 5 CMS, PHP, Docker, DDEV

SKILLS AND ABILITIES

Languages: JavaScript, CSS, Ruby, HTML, PHP, C#, Typescript, SQL

Technologies: Ruby on Rails, Craft CMS, Docker, UiPath, PostgreSQL, React, Jira/AGILE dev, MacOS, Git, DDEV, Microsoft Office Suite

Personal:

- Encourages constructive criticism and open discussion of my code as I firmly believe that the final outcome matters most.
- Adept and clear communicator with a friendly personality and eagerness to help others.
- Reliable work ethic and willingness to learn new things as required of the job.
